MICROENCAPSULATED PROBIOTICS

Advanced Micro-encapsulation Technology

Our advanced Micro-encapsulation Technology allows probiotics to travel safely through the acidic upper gastrointestinal tract. It is also able to withstand hot water used in preparation. This advanced system achieves targeted and controlled release of probiotics.

SYNERGISTIC PREBIOTIC + PROBIOTIC
= SYNBIOTIC

A combination of gut-healthy probiotics that helps with digestion and prebiotics that feed the good bacteria in your gut.

The Australasia Pacific Dairy Company products are made in facilities with accreditation from institutions verifying their commitment to high quality, premium products.
